ABOUT ME

I am a web developer with experience in accessibility, project management and user experience design. I'm a fast learner, creative problem-solver and enjoy working with talented people to do good in the world.

PROJECTS

2021 **Designer / Developer | *Portfolio***
Designed and developed my personal portfolio using Figma, HTML, CSS and JavaScript with a focus on accessibility and user experience

2021 **Designer / Developer | *TrailerStop***
Created a responsive web application using HTML, CSS, and JavaScript to watch trailers; consumed The Movie Database API to dynamically display data and play YouTube trailers on the site

2019 **Project Manager / UX Designer | *Tabletop Game***
Managed a team of 4 designers in the design of a tabletop game; used Agile methodology and Design Sprints to complete 3 playable prototypes; conducted play testing to gain feedback and improve design

WORK EXPERIENCE

2018 - 2020 **Community Engagement Coach** | *Miracles & Memories*
Seattle, WA
Provided support to a caseload of 7 individuals with intellectual and developmental disabilities, incorporated the use of assitive technology to address accessibility barriers during coaching

2014 - 2017 **Mental Health Respite Worker** | *Community Access*
New York City, NY
Provided mental health support to a caseload of 8 clients experiencing psychiatric and/or emotional crisis in a residential respite center, used progressive mental health models to facilitate groups, conduct intake and exit procedures and provide one-on-one counselling

2012 - 2014 **Peer Support Specialist** | *Another Way*
Montpelier, VT
Provided mental health support to clients at a mental health focused community center, planned and facilitated wellness focused groups and outings, trained and managed all aspects of the volunteer program
